Qualifications

Experienced WordPress web developer with over 2+ years of expertise in front-end and back-end development, with 2+ years of hands-on experience in WordPress development and over 2 years in software development. Skilled in creating custom themes and plugins, configuring WordPress CMS, and building dynamic, responsive user interfaces using HTML, SCSS, JavaScript, and PHP. Strong problem-solving abilities and a deep understanding of modern UI/UX principles. Adept in version control and committed to delivering high-quality, user-centred web solutions.

Employment Experience

Senior Full Stack Developer,
ArrowHead Bid Inc.
June 2022–Present

- Developed front-end (user interface and user experience) and back-end (database) enterprise solutions on various platforms and maintained and developed scalable, responsive **WordPress websites,** including setup, configuration, theme customization, and plugin development.
- Built custom **plugins from scratch** to extend site functionality and meet specific business requirements.

- Developed front-end (**UI/UX**) and back-end (database) features using a **mobile-first** and **test-driven** development approach.

- Wrote clean, maintainable code using **HTML, SCSS, JavaScript, and PHP** to build intuitive interfaces and seamless site interactions.

- Enhanced user interfaces using **React** to ensure responsiveness and modern design principles.

- Utilized **version control tools** like Git to manage project source code, track changes, and collaborate with team members efficiently.

- Collaborated with service design teams to ensure coherence across **microservice architectures**, leveraging open-source tools and robust testing

Open Source Contributions in WordPress.org: [Auto Page Creator](#)
